UNIVERSITY OF WOLVERHAMPTON

Project Management 4.4

Project Health and Safety

UNIVERSITY OF WOLVERHAMPTON

Learning Outcomes

- By the end of this week, you will be able to:
  - State why Safety is important
  - Know the legal and moral obligations
  - Be able to discuss safety implications.

UNIVERSITY OF WOLVERHAMPTON

Health and Safety Considerations

- When Planning a project, there are factors to consider outside of the project itself, but they may impact on it
- Health and Safety is a very important part of any project and as an organisation we have MORAL, LEGAL and FINANCIAL reasons for taking H&S seriously
- There is a cost in not planning or accounting for H&S issues.

Safety in Projects - UK

- Duty of Care
- The Employer's Duty of Care
- Employee Rights and Expectations

UNIVERSITY OF WOLVERHAMPTON

Safety in Projects

- Health and safety is concerned with identifying possible adverse effects and then considering the risk of their occurrence.
- Some ways of minimising risk may well include:
  - **Communication**
  - **Senior management backing**
  - **Legal aspects**
  - **Human aspects**
- Ford Pinto Case Study
