Learning Outcomes

- By the end of this week, you will be able to:
  - Use Planning Tools
  - State why governance is required
  - Discuss different lifecycle models
  - Give relevant examples

Project Context

- Context is important
- A company starved of funds cannot undertake projects in the way a growing and cash-rich business might (and vice-versa)
- Organisational culture and beliefs will have an affect on how projects are carried out
- Some companies are more risk adverse than others
- Some companies are very quality oriented – others are not
- Innovation may change the way the company works
- People are reluctant to change.

Projects in Organisations

- The Organisation itself will have an impact on how the project is:
  - Conceived
  - Authorised
  - Managed
  - Deployed
  - Reviewed
  - Funded
- Things that affect Organisational views on a project management context:
  - Risk Tolerance
  - Finance
  - Organisational Culture
  - Change Tolerance
  - Project experience.
